Evgenii Rubin

Frontend Developer (React, Next.js)

Novi Sad, Serbia | Serbian Work Permit
+381638355517 | stupidkubik@gmail.com | [LinkedIn](#) | [Telegram](#) | [GitHub](#)

Summary

Frontend Developer with a strong background in web production automation. Proven track record of optimizing editorial workflows by 50% through custom scripts and structured data implementation. Skilled in the modern React ecosystem (Next.js, TypeScript, Redux) with a focus on building performant, scalable UI. Passionate about solving real user problems and exploring AI-driven development tools to build efficient, scalable web applications.

Skills

TypeScript | React | Next.js | Redux Toolkit | Node.js | Firebase | Stripe API | Tailwind CSS | Git | CI/CD (GitHub Actions) | Vitest | Playwright | GitHub Copilot | Codex IDE | Cursor IDE

Professional Experience

Tinkoff Journal - Part of Tinkoff, a leading European digital bank with 40M+ customers
Frontend Developer | (Aug 2023 — Jan 2026)

- Owned the web content delivery pipeline, ensuring rigorous cross-browser compatibility (Chrome DevTools, Safari Web Inspector) and strict adherence to the design system for 140+ monthly releases.
- Designed and implemented a structured JSON/XML data schema to automate the Google Docs-to-CMS pipeline, cutting content formatting errors by over 50%.
- Introduced frontend quality gates (Markdown/Git) and created technical documentation that reduced production bugs and cut onboarding time for new content specialists.
- Implemented standardized HTML5/CSS3 UI layout patterns and resolved complex CSS/typography rendering edge cases, reducing assembly time for complex pages by 50%.
- Built a JavaScript automation script to batch-process assets from Figma to the CMS, saving the content team over 10 hours of manual data entry monthly.
- Optimized content sanitization workflows by engineering complex Regular Expressions with AI assistance, reducing manual cleanup time.

Education Certificates

Advanced TypeScript: Hexlet.io (Nov 2024 — Feb 2025)

Web Developer ~720h: Yandex Practicum (Jan 2023 — Nov 2023)
Responsive Web Design: freeCodeCamp (Jul 2022 — Nov 2022)

Languages

Russian: Native
English: Professional Working Proficiency (B2)
Serbian: Elementary Proficiency (A1)

Personal Projects

Kanban Board | Next.js, React, TypeScript, Redux Toolkit, Firebase, dnd-kit, Vitest
Real-time collaborative Kanban board with authentication and roles. Leveraged AI-assisted development workflows to accelerate boilerplate code generation and increase feature delivery speed by ~30%.
Stripe E-commerce | Next.js, TypeScript, Stripe, Tailwind, shadcn/ui, Zod, Playwright/Vitest
Live product catalog from Stripe Products/Prices, cart to success timeline.
Admin Dashboard MVP | Next.js, React, TypeScript, RTK Query, Tailwind, Charts, i18n
Dashboard-style web app focused on complex UI states (tables, charts, filters).
