SUMMARY

Frontend Engineer with 3+ years of experience building and maintaining components for high-traffic web applications. Proven ability to improve development workflows, cutting production time by 50% through automation at Tinkoff Journal. My real passion lies in the modern stack, demonstrated through production-grade personal projects using Next.js, TypeScript, and CI/CD, including a real-time Kanban app and a secure Stripe e-commerce storefront. Seeking a full-time role to apply these advanced skills.

SKILLS

- **Core:** TypeScript | React | Next.js | Node.js | PostgreSQL | Tailwind CSS | Docker | CI/CD (GitHub Actions) | Testing (Vitest, Playwright)
- **State, Data & Integrations:** Redux Toolkit / RTK Query, Zustand, React Hook Form, Zod, Firebase (Auth, Firestore, Admin SDK), Stripe API, PostgreSQL (Neon)
- **Quality & Delivery:** Git, CI/CD (GitHub Actions), Vitest, Jest, Playwright, Cypress, Testing Library, accessibility testing (axe), Cross-browser QA
- **UI & Practices:** shadcn/ui, Radix UI, TanStack Table, i18n/l10n, WCAG-conscious accessible UI
- **AI-assisted Tools:** GitHub Copilot, Cursor, Codex

PROFESSIONAL EXPERIENCE

Playbox — Part-time · Remote

Creative Developer (Playable Ads) | Mar 2026 — Present

- Developed and optimized interactive playable ad creatives in TypeScript for 20+ major ad networks (e.g., ironSource, Unity Ads), reaching a combined audience of over 100M users.
- Engineered a reusable component structure within the Cocos Creator engine to accelerate the adaptation of creatives for different platform specifications and screen sizes.

Tools: Cocos Creator Engine, TypeScript

Tinkoff Journal — Part of Tinkoff Group, digital bank ecosystem with 40M+ customers · Full-time · Remote

Frontend Developer (CMS & Web Production) | Aug 2023 — Aug 2026

- Cut manual assembly time for complex articles by 50% by creating a suite of automation scripts and standardizing content imports (JSON/XML), enabling the editorial team to meet tight deadlines.
- Engineered and maintained a library of reusable UI components and snippets for a high-traffic CMS, used to publish ~140 articles per month.
- Owned the end-to-end technical production for feature articles, ensuring cross-browser compatibility and performance for a readership of millions.
- Reduced post-launch bugs by 30% by implementing a standardized pre-release QA checklist and robust content validation rules.

Tools: HTML/CSS, JavaScript, Git, JSON/XML, Regex, Cross-browser QA, Automation

PERSONAL PROJECTS

Kanban Board App — Next.js (App Router), React, TypeScript, RTK Query, Firebase Auth/Firestore, dnd-kit, shadcn/ui

- Real-time collaborative Kanban board with Firebase Auth/Firestore sync, optimistic UI, board invites, and editor/viewer roles.
- Drag-and-drop cards with labels and assignees; covered by Cypress E2E tests and dedicated Firestore security-rules tests.

Verdant Lane — **Stripe E-commerce Storefront** — Next.js, TypeScript, Stripe Checkout, PostgreSQL (Neon), Zod, Playwright/Vitest

- Production-minded storefront connecting a live Stripe catalog to a durable Postgres order pipeline, with signature-verified webhooks and HMAC-protected receipts.
- CSP/HSTS security hardening, 150+ automated unit/E2E tests (~91% coverage), and a least-privilege GitHub Actions CI pipeline.

Admin Dashboard MVP — Next.js (App Router), React, TypeScript, RTK Query, TanStack Table, Tailwind CSS, shadcn/ui

- B2B admin template with dashboard widgets, a CRUD user table, and validated forms (React Hook Form + Zod).
- Theme switching, i18n across 4 locales, and automated accessibility/visual-regression testing (Jest, Playwright).

Personal Portfolio Website — Next.js, React, TypeScript, Tailwind CSS | [evgenii-rubin.vercel.app](#)

- Designed and built this CV site end-to-end: accessible layout, light/dark theming, technical SEO, and a GitHub Actions CI pipeline.
